ROUNDS
By successive short cuts

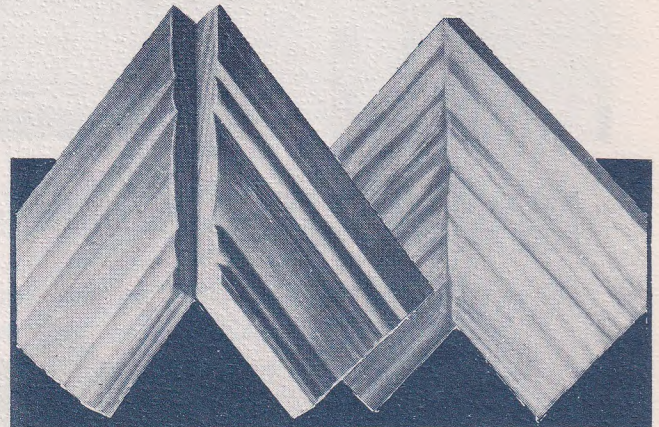

CHAMFERS
Full or partial

**A TRUE TIME-SAVER
ON EVERY JOB**

A natural for
**CARPENTERS • CABINET MAKERS
PICTURE FRAMERS HOMECRAFTERS**

- CUTS LIKE A RAZOR
gives a satin smooth surface
- NEVER ANY SANDING

Just as they left the machine—no sanding— No finishing

THE LION TRIMMER employs the principle of the "shearing" cut. This cut is easy to make, leaves a smooth surface for gluing, and is precision-accurate down into the thousandths of an inch. Any wooden dimension may be mitered at any angle from 45 degrees to 90 degrees, with the most precise variations in between as needed. Lion Trimmers are extremely rugged and fool-proof. The Lion Trimmer's inherent accuracy can be maintained throughout its life of many years.

CORRECTION CUTS

Frequently required when an opening being "trimmed" is not exactly square, correction cuts are instantly made to paper-thin accuracy by shifting the work slightly to any "off-angle" needed for close fitting of every joint. Troublesome planing or sanding is eliminated.

SQUARING OF ENDS

Ends up to 6 inches wide can be done quickly by using the powerful planing action of the Lion Trimmer, right across the grain.

PORTABILITY

The Lion Trimmer can be bolted firmly to any small bench or horse and its weight of only 25 pounds allows easy moving from place to place on the job.

GUARANTEE

Lion Trimmers are fully warranted against imperfections of workmanship or materials, and are guaranteed to operate as represented if simple instructions are followed. Such a tool can be your finest investment in mitering efficiency.

THE POOTATUCK CORP. SHELTON, CONN.

COMPLETELY ACCURATE MITER CUTS AT ALL TIMES

THE MOST VERSATILE TOOL A BUILDER CAN USE

A BASIC TOOL — saves time & trims costs as no other type of cutter can.

**"PURCHASED IN 1901
... And still in use!"**

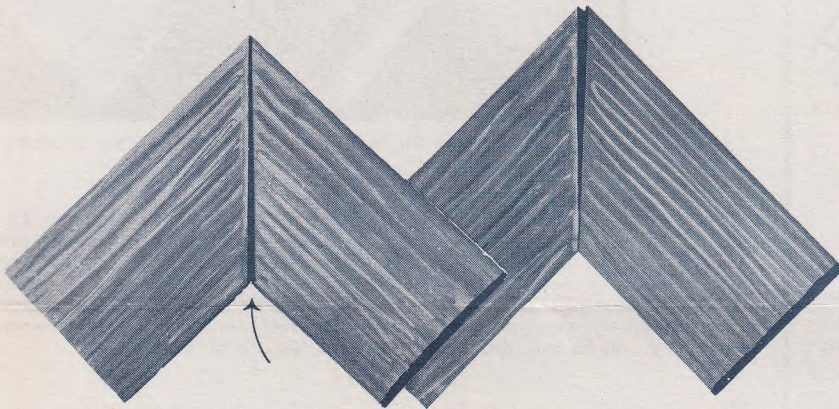

... writes Ivar W. Lofgren,
W. R. Lofgren & Sons,
Building Contractors.

From an ad in a 1901 paper

**"A MOST WONDERFUL LITTLE
MACHINE FOR CUTTING SQUARE
OR MITRE JOINTS QUICKLY,
WITH A SMOOTH AND ACCU-
RATE FINISH. BUTTS OFF ENDS
OF SIDING, FLOORING, MOULD-
INGS, ETC. AT ANY ANGLE."**

**... And most of our tools — 2
GENERATIONS OLD — are still
in use!**

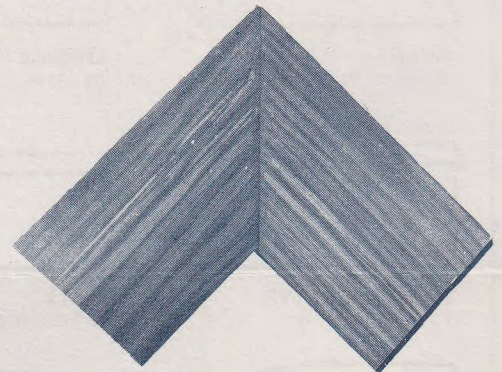

HOW OFTEN DO YOU HAVE TO SAND, OR PLANE, OR
PATCH FAULTY FITS LIKE THESE:

FOR OUT OF PLUMB, OR NOT PERFECTLY SQUARE OPENINGS

**THEY CAN BE CORRECTED
INSTANTLY WITH THE LION
TRIMMER — even beveled un-
der if needed!**

Mitered ends can be corrected to a perfect fit
